

# Science of Smoking Study (SOS)

*Thomas J. Payne, PhD, Principal Investigator*

- ◆ Scientific evidence suggests there is a genetic link to tobacco use and nicotine addiction.
- ◆ Both smokers and nonsmokers are needed for a new study addressing this important issue.

This research is being conducted by  
**ACT – A Comprehensive Tobacco Center**  
of the University of Mississippi Medical Center

- ◆ This program involves one (1) visit to the ACT Center.
- ◆ All participants who qualify receive \$25 for their time.

For information about the Science of Smoking Study, call:

**601 – 815 – 1272**

*This is NOT a “quit smoking” study.*

*However, treatment is available free of charge if participants are interested.*

Supported by grants from the National Institutes of Health (NIDA) and The Partnership for a Healthy Mississippi. The University of Mississippi Medical Center offers equal opportunity in education and employment in all its programs and services, M/F/D/V.
